

Press Release

Altmann Analytik expands – move to new office accommodation

New offices and storage in Munich / HPLC column configurator provides an individual range of products and helps comparing the offers of different manufacturers

Munich, 24 April 2013. Altmann Analytik moved into a larger office accommodation in Rupert-Mayer-Straße 46, Munich on 1 April 2013 – just a few minutes from the old headquarter. The new office space of the independent trader for instrumental analytics contains a larger storage and is ready for further growth in the next years. In the complex of buildings all areal and technical requirements have been established to provide the best solutions and products for our costumers' demands.

The Munich-based company Altmann Analytik has already helped a large amount of satisfied customers with time and money savings, thanks to the innovative HPLC Column Configurator - <http://www.analytics-shop.com/gb/hplc-column-configurator.html>. It helps you to quickly find the right column you are looking for. Within a few seconds you find the right column out of over 50.000 HPLC and UHPLC columns from more than 20 manufacturers. "With a variety of over 20 brands, we have been able to help numerous costumers saving both time and money", CEO Tobias Thelen explains. "To cope with the growing demand for chemical analytics, we have employed new staff in our storage and expert for our online shop. Over the following weeks we will hire even more heads."

For more than 30 years Altmann Analytik from Bavaria, Germany, has been your competent and independent partner for instrumental analytics. In the catalogue and online shop www.analytics-shop.com customers find more than 100,000 products from more than 30 manufacturers.
