Analytics-Shop now dealer of Polymer Standards Service (PSS)

Munich, 31 July 2013. Polymer Standards Service (PSS) has recently been added to the range of manufacturers at analytics-shop.com. PSS was founded more than 20 years ago in Mainz, Germany. In the last couple of years the spin-off from the University of Mainz has registered a rapidly increasing number of customers from more than 50 countries. Both extremely well-educated professionals and high standard laboratories add to the success. PSS materials are characterized by modern analytical methods and are used for a large variety of applications. These high quality products are from now on available at Analytics-Shop.com.

PSS produces columns for chromatography that vouch for long-term reproducible results, excellent separation efficiency and excellent stability. Each column is tested according to DIN EN ISO 9001 standards to assure best quality. By distributing PSS HPLC columns [Analytics-Shop](http://Analytics-Shop.com) is able to strengthen its position as one of Europe's main dealers of chromatography supply.

For more than 30 years Altmann Analytik from Bavaria, Germany, has been your competent and independent partner for instrumental analytics. In the catalogue and online shop www.analytics-shop.com customers find more than 100,000 products from more than 30 manufacturers.
